# Junior FUTURE LEADERS MANCHESTER

**ncg** new college group

Connecting the world through English

## Who is the programme for?

As the world becomes more and more interconnected through trade, travel and culture, we need young people who understand both the benefits of globalisation and the problems we need to resolve. This course takes an in depth look at key aspects of leadership and aims to build confidence and skills to inspire the young leaders of tomorrow. During the course, learners will look at different aspects of leadership and take part in topic-based lessons which adopt the communicative approach. The lessons aim to foster 21st century skills and build the learners' ability to empower, motivate and influence other people. This begins with students reflecting on their own identity and place in society and how they can make a positive difference to the world we live in. Participants will study key language and coping skills to enable them to communicate with confidence and build critical thinking and soft skills through collaborative learning activities and task-based learning in class. Ultimately, this course attempts to empower students with the necessary skills to be a strong leader in a modern world.
