

Statement of Educational Purpose

New College Group provides excellent quality English Language courses for students who need English for examinations, academic progression, work or pleasure.

We are flexible in terms of the courses we offer and can design courses to meet individual and specific requests.

We offer a contemporary, bright and clean learning environment, in which courses are delivered by highly professional and suitably qualified teaching staff.

We aim to provide a beneficial and enjoyable all round learning experience as well as helping students gain an insight into British or Irish life and culture.

We aim to ensure that our courses are relevant to the needs and interests of our students, embracing different learning styles which are reflected in the different teaching methodologies used.

We offer a collaborative approach to teaching and learning. Our teachers monitor student progress to help and guide them in achieving their learning goals through regular tutorials and formative assessment.

We put a very high priority on the welfare of our students and endeavour to provide an environment in which any students can approach our staff to receive support where needed.

Through our sister company, Edvoy, we offer guidance and support to students who wish to study at higher education institutions.
